

2021 North Texas SHRM Annual Conference COVID Response Plan

The North Texas SHRM Conference Committee and Denton Embassy Suites are working hard to ensure a safe in-person conference experience for you! The team will take extra measures with guidance from the CDC to ensure your safety and the safety of its team members!

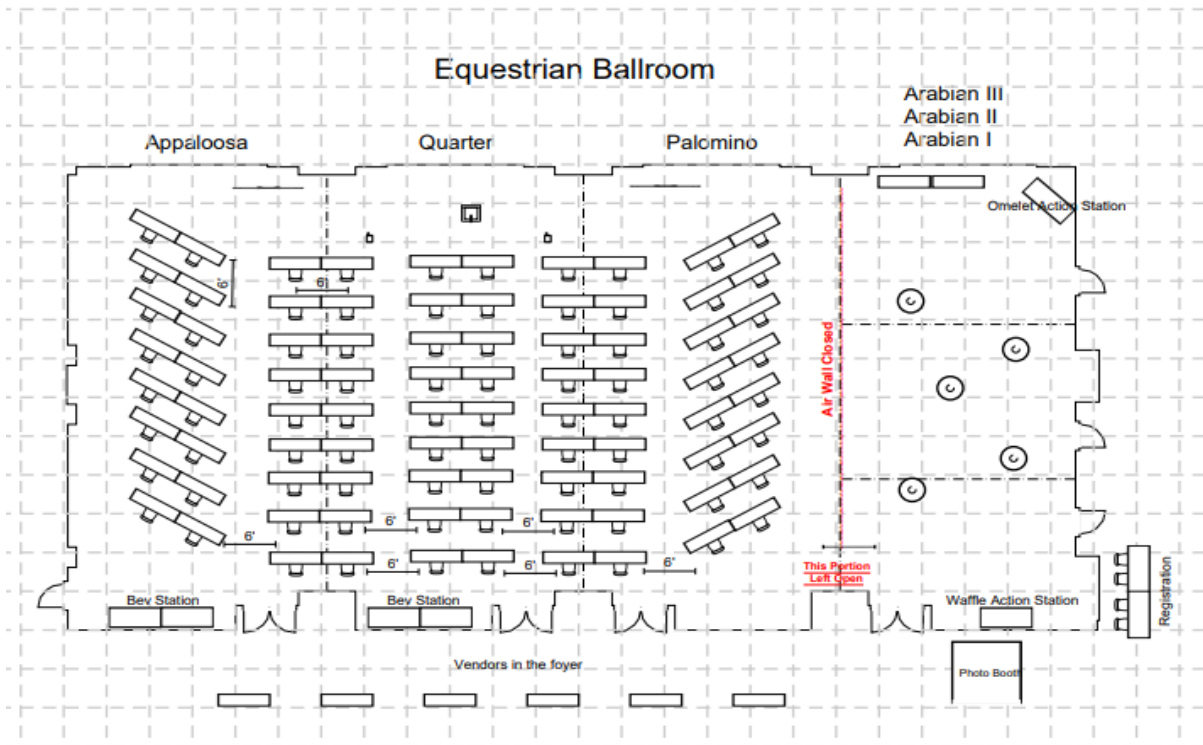

Face Coverings: The hotel in accordance with CDC and WHO guidelines, require face coverings in all indoor public areas.

Social Distancing: Everyone is asked to socially distance while participating in conference related activities.

Health Assessments: Staff, Vendors, and Attendees are reminded not to attend if they are/have been recently sick or are experiencing any COVID-like symptoms.

Operational Measures:

- **Floor Plan:** Distance will be added between conference attendees. The Hilton Brand Standard requires one person at each table in a classroom layout for social distancing (6 ft per diagram below).
- **Sanitizing:** Additional housekeeping will be dedicated to specific zones and areas to increase the frequency of cleaning protocols. There will be a team to sanitize the meeting room during lunch break, and the hotel uses Hypochlorous Acid (HOCL) in all common areas, bathrooms, HVAC intakes, and guest rooms (upon checkout). Throughout the hotel, you will find physical distancing markings, CleanStay signage, and sanitizing stations.
- **Food and Beverage Options:** Seating arranged to accommodate social distancing and food stations will be designed to minimize contact.

Grab your mask and your sanitizer and join us for two fun-filled, educational days! SOURCE:
